---

## A BILL

To require the President to call a White House Conference on Food and Nutrition.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “The White House Con-  
5 ference on Food and Nutrition”.

6 **SEC. 2. FINDINGS.**

7 The Congress finds the following:

8 (1) Hunger and undernutrition are political  
9 conditions that can be solved.

1           (2) Access to healthy food and good nutrition  
2           should be a fundamental right of all Americans.

3           (3) Nearly 40 years have passed since the  
4           United States convened a White House conference to  
5           comprehensively address the issues of food, hunger,  
6           health, and nutrition in America.

7           (4) More than 35,500,000 Americans live in  
8           households that face a constant struggle against  
9           hunger, 12,600,000 of whom are children and  
10          5,000,000 of whom are seniors, the disabled, and the  
11          critically ill.

12          (5) The Government spends more than  
13          \$55,000,000,000 every year responding to the con-  
14          current epidemics of hunger and undernutrition, yet  
15          the number of Americans facing hunger continues to  
16          grow and our Nation's nutritional health is declin-  
17          ing.

18          (6) Conservative cost estimates show that the  
19          true cost of hunger and illness related to undernutri-  
20          tion in America is at least \$90,000,000,000 a year,  
21          more than half of which is paid by Medicare and  
22          Medicaid.

23          (7) Appropriate food and nutrition can save the  
24          United States billions of dollars in health care costs  
25          by preventing or delaying the progression to late-

1 stage disease for tens of millions of Americans who  
2 live with chronic diseases, such as diabetes, HIV,  
3 AIDS, and heart disease. The costs of the effects  
4 and treatments of those diseases are significantly ex-  
5 acerbated by hunger, food insecurity, and under-  
6 nutrition.

7 (8) A national discussion of the root causes of  
8 hunger, food insecurity, and undernutrition, as well  
9 as identification of solutions to these epidemics, can  
10 lead to action to implement such solutions and to  
11 end hunger in America.

12 **SEC. 3. AUTHORIZATION OF THE CONFERENCE.**

13 (a) **AUTHORITY TO CALL CONFERENCE.**—Not later  
14 than December 31, 2010, the President shall call the  
15 White House Conference on Food and Nutrition (in this  
16 Act referred to as the “Conference”) to be convened not  
17 later than 18 months after the selection of the Policy Com-  
18 mittee established in section 4, in order to make funda-  
19 mental policy recommendations on ways to end hunger  
20 and to improve nutrition in the United States and to im-  
21 plement the purposes set forth in subsection (c).

22 (b) **PLANNING AND DIRECTION.**—The Secretary of  
23 Health and Human Services, the Secretary of Agriculture,  
24 and the Secretary of the Treasury (in this Act referred

1 to as the “Cochairs”) shall plan, conduct, and convene the  
2 Conference, in consultation with the Surgeon General.

3 (c) PURPOSES OF THE CONFERENCE.—The purposes  
4 of the Conference are to—

5 (1) identify viable solutions for ending hunger  
6 in the United States;

7 (2) review the current structure, scope, and ef-  
8 fectiveness of existing legislation and programs at  
9 the Federal, State, and local levels that provide for  
10 the nutritional needs of food-insecure people living in  
11 the United States;

12 (3) determine the extent to which current Fed-  
13 eral, State, and local programs that provide for the  
14 nutritional health of Americans can better use avail-  
15 able resources and ensure greater coordination  
16 among such programs;

17 (4) identify new ways to utilize the abundant  
18 agricultural resources of the United States to meet  
19 the nutritional needs of all Americans;

20 (5) highlight emerging and innovative programs  
21 from the public and private sectors, including com-  
22 munity-based and faith-based organizations that ef-  
23 fectively address the nutrition needs of vulnerable  
24 Americans and recommend such programs as can be  
25 reasonably and cost-effectively replicated;

1           (6) identify opportunities for effective partner-  
2           ships between the Government, industry, labor,  
3           healthcare, and the nonprofit sectors to fight hunger  
4           in the United States;

5           (7) explore the possibility of creating a Federal  
6           office within the Department of Agriculture to over-  
7           see the Nation's response to persistent and wide-  
8           spread hunger and food insecurity, to include the  
9           oversight and coordination of all Federal, State, and  
10          local antihunger programs;

11          (8) bring public attention to the more than  
12          35,500,000 people living in the United States that  
13          face a constant struggle against hunger, food insecu-  
14          rity, and inadequate nutrition;

15          (9) illustrate the medical, developmental, and  
16          educational impact of hunger, food insecurity, and  
17          inadequate nutrition, and the potential savings to  
18          the United States health care system, educational  
19          system, and other sectors when appropriate food is  
20          available to the critically and chronically ill;

21          (10) build understanding of the true cost of  
22          hunger in the United States, to include lost wages,  
23          diminished stamina, reduced capacity to learn, and  
24          the impact of despair; and

1           (11) build understanding that the ever-bur-  
2           geoning dual epidemic of hunger and undernutrition  
3           is a matter of national security.

4   **SEC. 4. POLICY COMMITTEE; RELATED COMMITTEES.**
